

56381.

**Timeframes for Adoption**

(a) The commission shall adopt annually, following noticed public hearings, a proposed budget by May 1 and final budget by June 15. At a minimum, the proposed and final budget shall be equal to the budget adopted for the previous fiscal year unless the commission finds that reduced staffing or program costs will nevertheless allow the commission to fulfill the purposes and programs of this chapter.

The commission shall transmit its proposed and final budgets to the board of supervisors; to each city; to the clerk and chair of the city selection committee, if any, established in each county pursuant to Article 11 (commencing with Section 50270) of Chapter 1 of Part 1 of Division 1; to each independent special district; and to the clerk and chair of the independent special district selection committee, if any, established pursuant to Section 56332.

**Auditor's Apportionment**

(b) After public hearings, consideration of comments, and adoption of a final budget by the commission pursuant to subdivision (a), the auditor shall apportion the net operating expenses of a commission in the following manner:

(1) (A) In counties in which there is city and independent special district representation on the commission, the county, cities, and independent special districts shall each provide a one-third share of the commission's operational costs.

(B) The cities' share shall be apportioned in proportion to each city's total revenues, as reported in the most recent edition of the Cities Annual Report published by the Controller, as a percentage of the combined city revenues within a county, or by an alternative method approved by a majority of cities representing the majority of the combined cities' populations.

(C) The independent special districts' share shall be apportioned in proportion to each district's total revenues as a percentage of the combined total district revenues within a county. Except as provided in subparagraph (D), an independent special district's total revenue shall be calculated for nonenterprise activities as total revenues for general purpose transactions less revenue category aid from other governmental agencies and for enterprise activities as total operating and nonoperating revenues less revenue category other governmental agencies, as reported in the most recent edition of the "Special Districts Annual Report" published by the Controller, or by an alternative method approved by a majority of the agencies, representing a majority of their combined populations. For the purposes of fulfilling the requirement of this section, a multicounty independent special district shall be required to pay its apportionment in its principal county. It is the intent of the Legislature that no single district or class or type of district shall bear a disproportionate amount of the district share of costs.

(E) Notwithstanding the requirements of subparagraph (C), the independent special districts' share may be apportioned by an alternative method approved by a majority of the districts, representing a majority of the combined populations. (c) After apportioning the costs as required in subdivision (b), the auditor shall request payment from the board of supervisors and from each city and each independent special district no later than July 1 of each year for the amount that entity owes and the actual administrative costs incurred by the auditor in apportioning costs and requesting payment from each entity. If, at the end of the fiscal year, the commission has funds in excess of what it needs, the commission may retain those funds and calculate hem into the following fiscal year's budget.

**County Loan**

If, during the fiscal year, the commission is without adequate funds to operate, the board of supervisors may loan the commission funds and recover those funds in the commission's budget for the following fiscal year.
