

Map created by Santa Cruz LAFCO on 2-23-22

Pajaro Valley Health Care District

The healthcare district was created through special legislation (SB 418) on February 4, 2022.

This map shows the jurisdictional limits of the new healthcare district, which is located in two counties (Santa Cruz and Monterey).

At present, the district does not have a sphere boundary. LAFCO will take action once progress has been made with the Hospital's purchase and business plan.
